We are B&M Builders, Inc. and are a construction and general engineering firm that specializes in heavy civil construction, mechanical services and street work since 2005. For over 16 years, we have put an emphasis on hiring intelligent, hardworking employees who know their craft and focus on giving our customers the best possible product and service.

Family owned and operated since the beginning we have built our company around family values. Each of our employees is considered family and formed into crews. These crews are encouraged to work together as one unit and communicate with each other and management. Communication is the key to any successful project completion.

Great Employees Make All the Difference

And the work they do is a reflection of who we are. Our team members are very knowledgeable and hard working. They pour their heart into doing a great job on all the projects we our involved. They start early and work late to make sure that they are providing the absolute best workmanship that one could hope for. We are proud to have them represent us when they show up to your site.
